ABBOTS BROMLEY PARISH COUNCIL

Minutes of the Parish Council Meeting
Held on Wednesday 29th September 2021 at 7.00 pm
Held at Abbots Bromley Village Hall pursuant to notice having been given

Present: Cllrs Mrs K Haywood (Chair), Mr R Beaumont, Mr K Baker, Mrs C Brown, Mr P Freeman, Mr R Mrs S Morgan, Mr E Rodway-Bowden,

In attendance: Mrs S Meads (Clerk),

Members of the Public Attending: 4

Contents:-

101. Apologies for absence	1
102. Public session	1
103. Declarations of interests	2
104. Minutes of previous meeting	2
105. Neighbourhood Plan Update	2
106. Matters of report	3
107. Planning	3
108. Financial matters	4
109. Group Reports	4
110. Jubilee	5
110. Correspondence, bulletins & reports	5
111. Agenda items for next meeting	5
112 Date, time and place of future meetings	5
Appendix 1	6
Appendix 2	10

101. Apologies for absence

Received from Cllr Dr C Whorwood RESOLVED: to accept apologies

102. Public Session

Mark Tatton, Fire Service, In charge of Abbots Bromley, Barton and Uttoxeter. Here to ask for support and provide an update on Abbots Bromley. 7 Staff – should be around 12. Constantly recruiting. Village has a higher than average ageing population so there is an issue with recruitment. Going to use social media to help with recruitment. Going to get an article through for the Bulletin. Also use Parish Magazine Staffordshire Fire Service – New chief. Becky Bryant retiring. Rob Barber has been appointed as Chief Fire Officer for Staffordshire. He started in early twenties and worked all the way through the ranks.

Cllr Love joined the meeting at 19.10

Mr Tatton wanted to make people aware that there is a fire station in the village and that new retained firefighters are currently being recruited. Takes about 2.5 years to become competent fire fighter. Minimum commitment is 50 hours a week. The Clerk highlighted that the Parish Bulletin is available for promoting the recruitment opportunities.

Mr Tatton thanked everyo	one for their time – more th	nan happy to come back again.
Abbots Bromley Parish Council	Signed	Page 1 of 1

Mr R Wheeldon, thanked the PC for representation of the cheque to the PCC for the work on the gravestones.

Mr Wheeldon added that in light of the certain situation with the school would the PC consider looking to the listings of certain building at the school. Cllr Love said that it would be good to hear which buildings the village would like to be considered.

Mr Wheeldon continued - War Memorial – may need to re-look at the work to be done to repair the posts, chains and War Memorial. The Clerk reported on the situation with the funds and work that has been done so far and that a contractor had been appointed to do the resurfacing but didn't make any contact to start the work.

103. Declarations of Interest

Cllr Baker declared an interested in planning application for Laurel Cottage.

104. Minutes of Previous Meetings

RESOLVED: that the minutes of 28th July 2021 were signed as a true and correct record.

105. Neighbourhood Development Plan Update

Cllr Freeman provided an update. He said that Mr Wheeldon, having completed the task of providing a Draft Plan for the PC now wished to stand down from further direct NPG involvement. Cllr Freeman said he has since written to all members of the NDPG and the following members had resigned from the group: Mrs J Wheeldon, Mr P Male and Mr R Humphries. A meeting was held at the end of August with the remaining members of the group. Essentially most of the work has been done to produce the draft plan and it was agreed at the meeting that the best way forward was that the three remaining councillors would take the plan forward. These councillors would be meeting every week. They have been working on the DWELLINGS, EMPLOYMENT AND COMMUNITY (DEC) Policy and the DESIGN AND HERITAGE (DAH) Policy. Still awaiting figures from Trent & Dove regarding affordable housing but if not received would need to use 2011 census. The DAH and DEC was circulated to all members prior to the meeting. These were discussed and two amendments were made to the DEC – see appendix.

RESOLVED: that the policies be approved by the council. Proposed by Cllr Freeman, seconded by Cllr Morgan.

Cllr Love confirmed that he was drafting the executive summary which would provide a summary in simple terms highlighting what the NDPG is advocating and recommending and that everything that is done is for the good and sustainability of the village. Cllr Morgan asked how this would be communicated. This was discussed and methods suggested included social media, The Bulletin, website and meetings.

Cllr Beaumont asked what would be the timeline for having an approved NDP? NDPG members said that it was really out of their hands but possibly 6-12 months, realistically Easter next year. Mr Wheeldon said that he was only to happy to help out with any information.

Cllr Love said that the group would have no control over the examiner stage.

Cllr Beaumont asked what weight the NDP carries. Mr Wheeldon said that it sits alongside the ESBC plan and the NPPF.

Abbots Bromley Parish Council	Signed	

Cllr Baker asked if there is any time with the consultant left. Mr Wheeldon said t hat we still have 1.5 days left with the consultant. The consultant has a great track record and he advises at government and county level. He is advising us and not doing the work for us.

Cllr Freeman asked the Clerk to chase up Trent and Dove regarding the request for further information.

106. Matters of Report

i. Welcome Pack

Cllr Mrs Haywood confirmed that this has now been completed. The Clerk to amend the pack and insert images that the PC is allowed to use.

ii. Visitor's Guide

The second addition has been revised following some suggested amendments from residents. It was not possible to include all amendments due to space. The guide had been well received and a reprint was on its way.

iii. Horn Dance

There was great weather on the day. Not all the stalls were taken this year. Possibly next year to have more craft displays as there will be more time to organise.

iv. Footpath from Salters Grange

The Clerk reported that over the past few years there had been several requests for the barrier to be removed or made more accessible for those in wheelchairs or with baby buggies. The path had been put in by the developers and still belonged to them, however, these had since been brought out by Redrow and they would have liability. Cllr Baker asked if the PC would pay at least half of the cost to put in a replacement if agreement was given by Redrow.

RESOLVED: that the Clerk contacts Redrow to ask their permission to remove the barrier. Cllr Morgan to research funding opportunities to put in a replacement.

v. Baker Family Memorial Bench

The Clerk has informed the family that the Parish Council is happy with the bench, just waiting for a visual of the bench to be received, the Clerk to circulate once received.

107. Planning

P/2021/00927 Laurel Cottage, Uttoxeter Road, Abbots Bromley, WS15 3EG

Raising the existing outbuilding by 500mm to create steeper pitch and re-roof

No Objections

P/2021/00942 Blythfields Farm, Poplar Farm Road, Bromley Hurst, WS15 3AY

Erection of a 1.8 high wall either side of the existing electric gate

No Objections

P/2021/01138 9 Ivy Close Abbots Bromley, WS15 3FB

Overall crown reduction by up to 3 metres of 1 oak tree and reduce 5 elongated branches by up to 3 metres in order to reduce the end weight of branches.

Ensure that the work is carried out by a professional tree surgeon

	, ,	•
Abbots Bromley Parish Council	Signed	Page 3 of 14

P/2021/001120 Highfields House, Bagot Street, Abbots Bromley, Staffordshire, WS15 3DB

Conversion and alterations of existing outbuilding to form an annex ancillary to the main dwelling house.

Parish Council to request conditions that it must always remain an annex to the main property, not exceed the present footprint, no fence or hedge between the main property, no removal of parking spaces.

108. Financial Matters

A Record of payments made after discussion with Chairman or Vice Chairman NONE

			will be sought at meeting
Vch/Chq	Payee	Amount	Details
30/2030	Mrs S Meads	576.69	Salary for September
31/2031	Mrs S Meads	107.12	Expenses
32/2032	Came & Company Ins	1572.77	Annual insurance premium
33/2033	Riverside Printers	727.00	Printing of Bulletin, Chair's
			Report & Visitor Guides
34/2034	ASL Ltd	18.36	Photocopier charges £3.06
			VAT
35/2035	G McCulloch	1180.00	Grounds Maintenance for
			July and August plus clearing
			of Narrow Lane
36/2036	Wicksteed Leisure Ltd	144.00	Reissue of cheque as
			incorrect. £24.00 VAT
37/2037	Playforce Ltd	1910.94	2 nd installment for new birds
			nest swing. £318.94 VAT
38/2038	Mazars LLP	240.00	Audit fee £40 VAT
		£6476.88	

RESOLVED: that the above payments be made.

108. Group Reports

i. Recreation – The wetpour needs urgent attention. Also the steps on the Millennium Green. Ask contractors for recommendations and quotations.

RESOLVED: that the Clerk obtain a quote for the repair work to be done.

ii. Village Property

RESOLVED: the Clerk and Cllr Freeman to arrange a tour to inspect property

iii. Traffic, Parking & Highways

CSW team has now done practical training. Ashbrook Lane to be added to the list for assessment. The gun was discussed. Cost for a new one £430 as the other one has been misplaced. The Clerk confirmed that the other gun was not a PC asset and was not purchased by the PC.

RESOLVED: that the Clerk would ask Kingstone PC if they were willing to share the cost of the gun.

iv. Competitions

BKV judges have been out and about in the village.

Abbots Bromley Parish Council	Signed	Page 4 of 14
-------------------------------	--------	--------------

Environmental competition – Cllr Haywood to liaise with schools

v. Bulletin

The Bulletin has now gone out – next issue November/December

vi. ABSA

Cllr Love said that the group had done well with donations for benches and trees but still trying to raise a lot of money to help fund the clubhouse.

vii. Village Hall

Nothing to report

viii. Almshouses

Nothing to report

109. Correspondence, bulletins and reports

All correspondence circulated prior to the meeting and contents noted.

- SPCA Weekly Newsletters circulated to councillors
- Covid weekly update emails from Cllr P Atkins circulated to councillors
- Email from resident regarding the removal of barrier on footpath near Salter's Grange Clerk has ascertained that the company that developed the area was sold off some years ago.
- Email from The Barker family regarding a memorial bench to be sited on the Village Green. Circulated to councillors and favourable responses received. Image of bench has been requested.
- Email from resident regarding noise on Millennium Green playground
- Monthly Report from PCSO T Leathers
- We Love Uttoxeter funding opportunity -<u>https://staffordshire.foundation/grants/weloveuttoxeter/#1585663076820-f6e51692-63c17219-dcae</u>
- HS2 contact card circulated to councillors. Clerk has requested permission to publish details on the village website
- Came & Company renewal invite for insurance Clerk circulated to councillors and highlighted increase in premium due to additional assets being listed.
- Email from resident regarding Highways signs left after maintenance finished Clerk reported to Highways
- Email from resident to request road sweeper visits to clear pavements of chippings
- Email from resident regarding reinstallation of white lines Clerk confirmed that Highways contractor will do these when all road repairs have been completed.
- Email request from Staffordshire Fire & Rescue to attend next Parish Council meeting confirmation that new Station Officer will be attending September meeting – Clerk forwarded details of meeting.
- Email to The Chair from resident to complain about information provided on the Neighbourhood Plan progress in the Chair's report email circulated to all councillors and response sent by the Chair to the resident.

110. Jubilee Celebrations

Roll over to the next agenda

111. Agenda Items for the Next Meeting

Jubliee, Meeting dates for next year.

112. Date, time and place of future meetings

Wednesday, 27th October 2021 Parish Council Meeting 7.00pm Abbots Bromley Village Hall

Abbots Bromley Parish Council	Signed	Page 5 of 14

Abbots Bromley Parish Council will do all it can to protect Abbots Bromley's heritage and village status and seek to enhance the well-being of the community by moving towards a greener and more sustainable environment.

Appendix 1

DAH: Design and Heritage

Purpose

- a. To ensure that new development is sustainable and well-designed.
- b. To preserve or enhance local heritage.

Rationale and Evidence:

Abbots Bromley is a historic village originally of linear design. Most of the built environment contained within the settlement boundary has been granted Conservation Area (CA) status.

The main street, and the ancient drovers' lanes which branch off, contain 51 Listed buildings and structures (three of which are Grade II*) and one Scheduled Monument.

The majority of these buildings lie within the identified CA, many having been constructed from locally-sourced materials such as timber, bricks, mortar and tiles. This uniformity of construction gives the village its unique character.

Abbots Bromley's Conservation Area status has been determined through a significant heritage that should be protected and preserved. In order to achieve the capacity to accommodate change, a fine balance has been struck between conserving and enhancing the existing stock of mainly historic older buildings with the residential housing needs of a popular commuter village. For this reason, it is essential that future design and materials are complementary to the original buildings in order to preserve the unique character of the village. This may be achieved through sensible decision making for sustainable housing and housing design now and into the future.

Conversion of current buildings to residential or commercial use must retain the original facades and rooflines.

Open green space is easily eroded forever. It is important to consider the negative impact of infill extensions on congestion and loss of the existing open space.

Featuring heavily alongside this is the need to meet (or exceed) the current environmental protection requirements.

'Building for Life 12' (BfL 12) - The industry standard for design of new housing developments has significantly informed the content of this policy.

Community opinion in support of this policy was primarily obtained from an initial questionnaire and separate survey (2016) and a series of topical open forums (2018-2019). These important opinions provide an evidenced and demonstrable 'local need':

Protection ⁻						

Abbots Bromley Paris	h Council
----------------------	-----------

- Building design and materials should be in keeping with the heritage and character of existing buildings and overall street-scene.
- Use of solar panels, underground heat-source pumps, installation of charging facilities for electric powered vehicles and future-proofed domestic boilers should be made.
- Local need should influence design and scale in order to achieve sustainability within the village and wider parish.
- Encouragement and protection of wildlife flora and fauna must be planned.
- The local heritage and rural location provide a sense of belonging amongst residents. These characteristics must be conserved.

The rationale for this Policy in relation to the protection of heritage is supported by the NPPF (Sections 12; 15; 16):

- Defining characteristics should be determined and reflected in developments.
- Developments should be sympathetic to the built environment and landscape setting.
- Designs should take into account the views and opinions of the local community.
- *Consent for development with poor designs which do not improve character, nor take into account local design standards, should be refused.
- It should be recognised that small-scale developments can cut greenhouse emissions through their design.

Further endorsement for the protection of heritage is contained in the ESBC Local Plan (2012-2031) (Strategic Policies 1; 24; 25; 27; 30) (Detailed Policies 1; 3; 5; 6; 8):

- Promotion of distinctive local identity.
- Designs that generate positivity towards traditional design and materials.
- Utilisation of sustainable construction techniques and materials.
- Promotion of renewable energy sources.
- Recognition of the value for health and well-being.
- Reduce and mitigate against the risk of air, noise, water, and light pollution.

ESBC's current Conservation Area Appraisal (CAA) of March 2009 for Abbots Bromley is also very supportive

in this context. It also makes reference to the Abbots Bromley Village Design Statement (March 2007).

The Abbots Bromley Village Design Statement (March 2007) captures a number of similar important points in relation to the protection of the village heritage:

- Developments and improvements should be designed to enhance the main elements: rural nature, heritage and community.
- Individual development should respect the settlement character of that part of the village in which it occurs, and adopt a sensitive and co-ordinated approach to design and layout.
- Any new development must sit comfortably with its neighbours, taking into account footprint area, shape, proportions and material of older buildings.
- Visual interest can be created by sensitive design detailing of windows, roof lines, and chimneys.

1. New development must be well-designed, sustainable and maintain the distinctive identity of Abbots Bromley. This includes meeting the following requirements:

1 bb ata	Bromley	Dorioh	Caunail
ADDOTS	Bromlev	Parish	Council

Sianed		
SIANDA		

- a) In order to create a satisfying relationship between built and open areas, the existing character of the village and the immediate context of the development site must be complementary in terms of scale, massing, height, distance of set back from the road, and materials.
- b) "Active" frontages (elevations with windows and doors) must be provided to road facing elevations, to provide natural surveillance.
- c) High quality and durable materials, in keeping with the surrounding built environment, must be used.
 Use of locally sourced materials is highly encouraged, as is use of reclaimed materials.
- d) Public realm designated areas should be complemented through effective
- 'placemaking' schemes that ensure high quality streets, with traditional landscape as an integral part of the design, and the creation of an inclusive, safe and convenient environment for residents to undertake a range of social activities.
- e) Design accounting for the specific site and context is required. Layout and form must respond to local features within and adjacent to sites; including local topography, landscape and water features, trees and plants, views, wildlife habitats, existing buildings and micro climate.
- f) Front boundaries comprising hedges or historic brick walls or railings must be retained as part of any new development. New front boundary treatments must complement the existing character of the area, based on use of low brick walls or hedges.
- g) All designs must include features/materials which actively reduce the impact of carbon emissions.
- 2. Development on the edge of the village must incorporate planting and landscape design to create a natural transition between urban and rural areas. Hard boundary treatments such as high walls and fences must be set back and be screened by suitable landscaping.
- 3. Creative and innovative design solutions will be considered, especially where they incorporate high environmental protection performance.

Developers should engage with local residents and the Parish Council at an early stage in the design process, as advised by the NPPF.

Design and Access Statements provide an opportunity to explain how the design of the proposed development responds to this policy and other design policies and guidance.

The policy requires new development to complement existing character.

The policy requires site specific design to complement the specific context. Being sensitive to context is not about stylistic imitation, but complementing the distinctive townscape characteristics of the area. Stylistic imitation or parody can be especially harmful in the case of new buildings within the setting of historic buildings.

The requirement for high quality building materials is especially important within the conservation area. Traditional materials such as timber, bricks, mortar and tiles (or high quality modern materials) should be used, but not mock traditional materials (such as plastic components in place of timber).

DAH2: Extensions

- 1. Extensions to existing residential, commercial, and community properties must:
- a) complement and not dominate existing buildings.
- b) not cause any significant adverse impact on the amenities of adjacent properties.
- c) maintain adequate functional garden space for the purpose of:
- amenity considerations such as daylight, privacy, leisure.

1 hhata	Bromley	Darich	Council
annots	Bromlev	Parish	Council

- effective separation between buildings, and adjacent sites to prevent noticeable development overcrowding.
- *Planting of native trees and shrubs to help screen and soften development, and reduce the effects of greenhouse gasses.

To avoid dominating the existing buildings, it is often useful for extensions to be set back or to be of a lesser height or smaller scale.

The question of whether to continue the existing style of the building or to contrast depends on the specific circumstances. For example, for historic buildings, use of lightweight modern or transparent construction for an extension can have a lesser impact on the original buildings than using heavy masonry construction.

DAH3: Abbots Bromley Conservation Area

- 1. New development must preserve or enhance the character and appearance of the Abbots Bromley Conservation Area:
- a) Every effort must be made to retain existing trees and hedges as part of any development. Where the removal of trees and hedges is unavoidable, replacement of the same species must be provided within the development site.
- b) Development in the main street must complement the predominant townscape characteristics, including the distinctive sense of enclosure and definition created by building frontag

Interpretation and Guidance:

The policy highlights the importance of certain buildings and features in considering impacts on the conservation area.

The policy draws attention to unlisted buildings that also make an important contribution to the special interest of the conservation area, creating a collective impact that draws on the local vernacular and contributes to the townscape character of the area. Mature trees are also an important part of the area's character.

The policy should be applied together with Policies DAH1 and DAH2, which are of particular relevance within the conservation area and setting of listed buildings.

ESBC Local Plan Policy DP5 refers - Protecting the Historic Environment: All Heritage Assets, Listed Buildings, Conservation Areas and Archaeology.

Appendix 2

DEC 1: DWELLINGS, EMPLOYMENT AND COMMUNITY

PURPOSE

To ensure that new residential and employment development caters for local need. To maintain and expand the range of local community facilities

RATIONALE AND EVIDENCE

Abbots Bromley's inclusive sustainability lies in the building/adaptation of a range of development types suitable for:

- An ageing population
- Residents with disability/mobility needs
- The retention of young residents in the community
- Young families
- Employment opportunities
- Community use

Approximately 2000 residents reside in the parish, with the majority living within the village of Abbots Bromley. ESBC's key points from its analysis of the most recent census figures (March 2011) show Abbots Bromley has a significantly above-average number of elderly inhabitants (26.5% compared to 19% nationally), and an above-average proportion of home-owners (81% compared to 68.9% nationally)..

The settlement boundary was extended in 2015 to the west along Uttoxeter Road and to the south along Lichfield Road. Accordingly, two development sites were created in order to accommodate the stipulated sustainable allocation of 40 homes contained in the East Staffordshire Local Plan. The Lichfield Road site has been developed with 11 large homes which are exclusively market-value. The other site has yet to be developed.

The allocation of 40 homes has already been exceeded by over 100% - with only 1 unit being an Affordable Home and none suitable for the disabled/elderly. Full consideration of this must therefore be given to decisions made on subsequent planning applications during the remainder of the Plan period.

The Neighbourhood Plan does not support development outside of the settlement boundary. This is supported by Local Plan Policy SP2

In order to provide early direction as to what development may be required to meet the local need, the NDP group conducted an audit of Abbots Bromley's current housing stock in January 2019. The results provided a clear indication that the majority of properties - were they to come onto the market - were not of the scale that would provide affordable or suitable homes for local residents during the remainder of the Plan period.

The views and requirements of the community were expressed through the following channels:

- A series of minuted Open Meetings held between Dec 2018 and June 2019 (available on the NP website, and also as an appendix to this document).
- Written statements
- Responses to proforma made available at local outlets
- Comments made on a dedicated NP website
- Oral comments to members of the neighbourhood plan group and parish councillors
- A parish-wide questionnaire (see the NP website for details and also an appendix to this document).

The DEC's policies support the community's clearly expressed requirement that there should be:

- Provision of a range of homes for the elderly
- Provision of certain types of Affordable homes
- Attention paid to sympathetic/measured planning and design
- Some small office units
- Some small rural craft units
- Development of facilities to enhance tourism
- Maintenance/improvement of facilities for a wide range of community groups.
- No more market-value homes of 3 bedrooms or more
- No development of open green spaces
- No heavy industry
- No development that would significantly increase the volume of traffic along the main street
- No change to the street scene in the conservation areas
- No over-development or infilling of open spaces
- No extension to the settlement boundary

The policy for future housing draws heavily on the robust Housing Needs Assessment (HNA) independently prepared by AECOM for Abbots Bromley Parish Council in 2019 (the conclusions of which were subsequently revised by AECOM on 10/6/2021).

The original full AECOM report may be viewed on the Neighbourhood Plan web page link under "Document Library".

The HNA's conclusions support the views of the community (see minutes of Open Meetings 15/3/2017, 4/4/2019, 2/5/2019), and help put figures on future housing need.

The revised HNA concludes with the following;

- Between 13-30 Affordable Homes "with a true need falling somewhere between". (This figure failed to take into account the 8 units available at the Abbots Bromley Hospital.)
- An aspirational figure of 110 units for the elderly, some of which would be Affordable homes, some adapted from current housing stock, some provided by Rugeley and Uttoxeter on a huband-spoke model, and some new builds.
- No additional market-value 3+ bedroomed homes are required.

Housing needs for the elderly should be met with a mix of market-value and social housing, ranging from independent living accommodation to warden-controlled units, to perhaps a care/nursing home.

Given that there are already 51 social housing units in Abbots Bromley, Affordable Housing for the younger generation has been set at 10-12 units. A Rural Exception site within the settlement boundary, provided by a Housing Association, is the preferred route. Through legal agreements these homes should be occupied by people with local connections (or who contribute to the sustainability of the village), and must remain Affordable in perpetuity. They should be a mix of social rent and shared ownership homes.

These objectives <u>can be met</u> through current development sites already within the settlement boundary, but only if these sites are used to meet the HNA's perceived housing need. By far the largest potential development site is the former Abbots Bromley School. Residents recognise that this brownfield site offers considerable potential. A separate policy, DEC4 has been written to give guidance about the sort of development that would be supported.

Abbots Bromley Parish Council	Signed
Abbots bronnieg i ansii Councii	olyricu

The rationale for the DEC policies in relation to housing development is supported by NPPF (sections 8, 11, 12):

- Promotion of sustainable development to support the needs of current and future generations.
- Provision of a sufficient number and range of homes to meet current and future need.
- Planning and development policies to account for the character, needs and opportunities of the area.
- Any approved housing developments which are in conflict with the made Neighbourhood Plan will likely cause an adverse impact that far outwerighs any intended benefits.
- Conditions apply to this Policy for a NP to over-rule conflicting development intentions.
- Rural housing planning policies should reflect local need.
- Substantial weight is given to the value of utilising brownfield land.
- The Local Authority should take a proactive role in helping bring forward brownfield land suitable for meeting development needs and better development outcomes.

Further endorsement of the housing development rationale for DEC policies is contained in the ESBC Local Plan (2012-20341) (SP 1,2,3,4, 14,15, 16,17, 21,22, 32, SO 1,4,8,9,12, and DP 1,3,5,6,8):

- New developments should be contained within the settlement boundary of Tier Two Local Service Villages
- A Housing Need Analysis is encouraged for determining the mix, scale and local need for housing development because it is evidence based.
- Homes suitable for the elderly support the borough-wide identified housing shortage.
- The community has positively influenced where development is located, through a "made" NP.
- Facilities and businesses to be encouraged in order to support the local community and economy.
- There is potential for improved access for housing, facilities, services and jobs.
- Important assets protected.
- Where practicable, reuse to be made of redundant buildings sympathetically integrated with the character of the landscape.
- Brownfield land development will be encouraged as it has the potential to create new neighbourhoods, adding value to the existing community.
- Connection with local heritage conserved and enhanced.

ESBC's current Conservation Area Appraisal (CAA) for Abbots Bromley is also very supportive in this context. It also makes reference to the Abbots Bromley Village Design Statement (March 2007) which captures a number of similar

important points in relation to the protection of the village heritage:

- Developments and improvements should be designed to enhance the main elements: rural nature, heritage and community.
- Individual development should respect the settlement character of that part of the village in which it occurs, and adopt a sensitive and co-ordinated approach to design and layout.
- Any new development must sit comfortably with its neighbours, taking into account footprint area, shape, proportion and material of older buildings.
- Visual interest can be created by sensitive design detailing of windows, roof lines, and chimneys.

DEC1: Residential Development

- 1. Residential development will be supported within the existing settlement boundary. The key stipulations are:
- a) Development must address the identified local need in terms of the mix, type and sizes of accommodation. The accommodation must include a mix of the following:

A I. I	D	Darwin I.	A
annots	Bromley	Parish	COUNCIL

Signed		
Sidiled		

- smaller housing and starter homes (1-2 bedrooms).
- smaller Affordable Housing for families (3-bedrooms) on a Rural Exception site within the existing settlement boundary and provided by a Housing Association. 3-bedroom market-value homes will not be supported until the community's housing needs have been met.
- housing suitable for the elderly, with a mix of market-value and social housing.
- Any Affordable Housing provision should focus on these types of housing.
- b) Proposals for bungalows and smaller terraced housing will be supported.
- c) Housing infill development for gaps in existing frontages must have no significant adverse impact on the amenities of neighbouring properties.
- d) Support for new housing within existing domestic garden space will not be encouraged and will only be supported where the existing dwelling would maintain adequate functional garden space and where adequate functional garden space would be provided also for the new dwelling(s). Development in historically important garden spaces (eg medieval burgage plots) will not be supported.
- e) Annexes for dependent relatives will be supported subject to a Planning Condition that they will not become separate dwelling units.
- f) Self-build schemes, co-housing and other community-led housing projects that meet the local need whilst satisfying all of the requirements of this policy are encouraged.

The Local Plan sets out locations for new housing development, housing scale and housing mix, and is augmented by this policy. Local need will be considered against the latest evidence available. The policy recognises the relative lack of smaller properties in Abbots Bromley and the need for housing suitable for the elderly.

The requirement for the retention and creation of adequate functional gardens applies everywhere, including within the settlement boundary. "Adequate functional garden space" is not defined in terms of area (given the varied character of the parish) but should include sufficient space for external table and chairs, recreation, outdoor play, drying of washing and other typical private garden uses. The size of the garden will also depend on the need to meet the requirements of design and heritage policies.

Support for new housing within existing domestic garden space will not be encouraged because of the significant disappearance during the Plan period of green spaces and habitats for wildlife.

The Local Plan sets out the circumstances where residential development may be considered outside the settlement boundary.

See also policy DEC3 on brownfield land development which may provide opportunities for new housing growth as part of a mixed-use development.

DEC2: Employment, Tourism and Community Facilities

- 1. Employment, tourist facilities and community facilities will be supported, subject to there being no significant adverse impact on the amenities of residential properties by reason of noise, vibration, disturbance, dust or other impacts.
- Development involving the loss of existing community facilities will be supported only where similar or better facilities are provided elsewhere, or it can be demonstrated that such facilities are no longer needed.

Abbots Bromley F	Parish Council
------------------	----------------

The Local Plan sets out policies on the location of new employment and community facilities and is augmented, but not replaced, by this policy.

DEC3: Brownfield Land Development

1. Development will be supported on brownfield land, subject to meeting other policy requirements in this plan.

Interpretation and Guidance:

This policy supports and encourages the development of brownfield land.

DEC4: Former Abbots Bromley School Site

- 1. Any brownfield land development on the former Abbots Bromley School Site must be based on the following development principles:
- a) The development must be within the Abbots Bromley settlement boundary.
- b) A mix of uses must be provided. This may include housing that meets the community's wishes (see Rationale and Evidence above), and the requirements of Policy DEC1, but must also include the retention or replacement of community use facilities within the site, as well as the creation of new employment opportunities.
- c) The Listed school buildings and other buildings of Townscape merit must be retained and refurbished as a key element of development, thereby maintaining their contribution to the special architectural or historic interest of the conservation area.
- d) Existing open space, including recreational space, must be retained.
- e) Trees and hedges must be retained as part of the development.
- f) The site should be viewed for planning purposes as one site and not as a collection of small development sites.
- g) Section 106 gains should be used to directly benefit the parish.

Interpretation and Guidance:

The policy recognises the possible future redevelopment of the Former Abbots Bromley School site as brownfield land within the settlement boundary, but sets out principles to ensure that such redevelopment achieves a sustainable mix of uses, including employment and community facilities, and preserves or enhances the character or appearance of the Conservation Area.

The policy sets out some considerations to assist in applying the special statutory duty set out in Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990.
